Hi Seema and Sweta,

Thanks for accommodating our last minute request. Students are really excited to be part of MC. I am sharing the key activities (not limited to) we wish students to complete these by 15th July 2019. The students will reach your MC office Raja Bazar tomorrow around 11:00 itself.

The objectives and activities to be conducted are:

a) To observe and assess the following:

- I. physical infrastructure, facilities, and resources available in the centre
- II. planning of activities, the transaction of activities and the use of TLM
- III. quality of health and nutrition services provided for children and families
- IV. interaction with family and community

b) to conduct the following:

- I. Activities with children to promote their creativity, physical, cognitive, socio-emotional and language development.
- II. Interview with creche workers/supervisors order to understand the challenges faced by them
- III. Interviews with 2-3 families regarding the access and satisfaction of ECD services

In case you have any more thoughts around this, please do share with us.

Thanks

Best,

Subject: Regarding MA (ECD) students' Block placement

Hi Seema,

...you are doing well.

Following to our conversation, as you may know that currently, I am working at the Centre for Early Childhood Development & Research, Jamia Millia Islamia. As part of the two years Masters program which I teach in Early Childhood Development, our students are required to do a block placement as part of their curriculum which stands for independent credits.

They have been placed in the past with ICDS department of WCD, but this time we want them to learn and contribute more innovatively. Considering the kind of work Mobile Creches is doing, I would like to explore an opportunity if our 19 students or based on your requirement can do this 15 days internship between **27th June 2019 to 13th July 2019**. Having said that, the objectives of this placement not limited to- is to understand the organization's work, observe the activities happening, contribute in developing content or reviewing, etc. interact with the staff if possible. This placement is really valuable for them before they are exposed to the larger world.

I am would be really thankful and happy if our students can be associated with Mobile Creches this time.

Look forward to your thoughts around it. I can also call you if you have some time today/tomorrow to discuss this in detail so that as an organization Mobile Creches can benefit the expertise of these Masters students and can strengthen their learning.

Thanks & Regards,
