**Dr. Mohammad Zahid Ashraf**  
Jamia Millia Islamia, New Delhi

Dr. Mohammad Zahid Ashraf, is a Professor in the Department of Biotechnology at Faculty of Natural Sciences, Jamia Millia Islamia (JMI), New Delhi. Prior to this, he headed the Genomics Division at Defence Institute of Physiology and Allied Sciences (DIPAS), Defence Research and Development Organization (DRDO), Delhi. After graduating in Biosciences from Jamia Millia Islamia (JMI), New Delhi, he did his PhD from JMI and Vallabhbhai Patel Chest Institute (VPCI), University of Delhi, New Delhi. Dr Ashraf worked as a post-doctoral fellow at one of the leading research groups in cardiovascular biology at the Department of Cell Biology and Department of Molecular Cardiology at the Lerner Research Institute, Cleveland Clinic, USA. His post-doctoral research involved studies on regulation of cardiovascular function by endothelial gene expression and their modulation by signaling molecules accompanied by the studies on the role of scavenger receptors in cardiovascular diseases.

His research focus includes Cardiovascular Biology, Functional Genomics, Molecular Medicine and Translational Biology. Dr. Ashraf has significantly contributed in the field of high altitude thrombosis and his work has tried to resolve the mystery of blood clotting on exposure to hypoxia at high altitudes and mechanisms associated with its pathology. His team has explored the role of platelet proteome in development of blood clot and discovered the role of novel regulator "Calpain" in pathogenesis of thrombosis at Himalayan mountain range. His research established the cause of venous thrombosis among soldiers posted at high altitudes of Siachen and this work has contributed in developing strategy for an early diagnosis and treatment of thrombosis in Indian Army Jawans posted under extremely hostile environmental conditions at high altitudes. In addition, Dr. Ashraf has divulged a unique role of inflammatory molecule NLRP3 inflammasome in potentiating venous thrombosis under hypoxic settings. Furthermore, he has developed a specific microRNAs-145 based therapy against thrombosis. These preclinical findings have been validated in patients, supporting the translational significance of miR-145 for development of a novel antithrombotic therapy.

National Bioscience Award for Career Development is conferred upon Dr. Mohammad Z. Ashraf towards recognition of his seminal work on high altitude induced thrombosis in the Indian population and mechanisms associated with its pathology.

The award for the year 2017 is being presented to Dr Mohammad Zahid Ashraf, Jamia Millia Islamia, New Delhi for the research work on “Cardiovascular biology”.

Dr Ashraf has been instrumental in resolving the mystery behind blood clotting on high-altitude hypoxia exposures. His work has exhibited the role of Calpain activation, NLRP3-Caspase1-IL1 $\beta$ -signaling and miR-145 in the thrombus formation and is in the process of their translational and commercial applications. His findings are acknowledged globally and documented in various journals-of-repute.

**Confidential Comments to the Editors**

It is a very nice conceptualized study with focus on very pertinent area. However analysis and discussion needs to be strengthened and aligned with objectives and design

So minor revision is suggested.

It should also be checked for originality/ plagiarism as I don't have software to check the same.

**Comments to the Author**

It is a very nice conceptualized study with focus on very pertinent area. However analysis and discussion needs to be strengthened.

The term secondary mathematics in the title has lost itself in the study- in design, analysis and implications. It should be given due weight-age. Is there anything specific to mathematics- why was it chosen, how it is different from other subjects etc.

blended learning academic in-service programme used in title also needs elaboration.

Dimensions for cognitive presence, social presence and teaching presence should have been used in analysis taking into cognizance total sample.

Was there any difference in perception related to synchronous and asynchronous

p2 line 34 diversify instead of diversity

According to table 1 there are also quite good number of teachers who are Degree Holders data related to them should also be discussed,

The reasons for less throughput rate should also be examined as teachers have mentioned in questionnaire the problems/ hindrances. It would be appropriate to know why there was dropout in case of candidates who were so motivated for enrollment. What were other obstacles besides lack of technological availability (were there also some social or cultural factors?) It may lead to important implications.

In addition to effect being reported in perceived terms it would be nice if artifacts indicating teachers cognitive presence, social presence and teaching presence.

An important question in the questionnaire was How, in your opinion, did Moodle help you in your studies this year? Explain why in each case. Second portion has to be dealt with in detail.

Since there were so many teachers how was the moodle perceived overall?? What were the benefits reported? We have data pertaining to 20 teachers only--how were these selected ??Did all have positive perception or were there some teachers with negative perception? Did some mention only obstacles and not positive perception?

Please specify meanings of (CP2;SP2) ,(SP1;SP3) (CP1;TP3) (SP1;SP3) etc. as have been used in the manuscript.

Conclusions should also be aligned with research questions.

Dear Ma'am

Thank you so much for such an elaborate review which will immensely help the author to further improve the chapters. While browsing your profile on the university's website I could notice that your areas of interest are – (i) Educational Technology (ii) Philosophy of Education (iii) Social Construction of Technology (iv) Inquiry based, reflective and collaborative learning. I'm writing this to explore if you'd be interested in writing one/two textbooks in any of these areas. And to ease you, I'd like to add that you are free to select your co-authors (if you wish) and the meta-frame for completion. We look forward to hear from you at the earliest. Also would it be possible for you to share your mobile number? You may reach me at 9971153458.

Warm regards

Dear Harjeet

Thanks

I shall do the formatting.

Regarding reference of Fayol's work -As a general rule, for works created after January 1, 1978, copyright protection lasts for the life of the author plus an additional 70 years. Fayol died in 1925 and all work till 1924 are anyway in public domain like that of Newton, Einstein and others. . 'Papers on the science of administration / by Luther Gulick, L. Urwick ... edited by Luther Gulick and L. Urwick'. was also published in 1937. Actually these are foundation theories of management and will never get antiquated. Hence these are still relevant and essential. However citation (secondary source added) Citing year once and then after that citing the author within the same text without year is allowed. For example Dewal (2008) said..... Dewal also said.....

Rest of the suggestions addressed.

We have deliberately kept the units long. A serious problem of our units has been sticking to the word limit of 6000 words out of which more than 2000 are taken up by structure, activities, check your progress, answers , summary etc. The discussions therefore lack depth. Hence instead of 16 there are just 8 units ( themes,) but each one of these is being taught well. If you remember we had decided to restrict the no. of units to 8 in the first expert committee meeting.

Although not mandatory, three weeks off per year are available for personal reasons (pro-rated for a partial year). This time must be taken prior to the end of your term at a mutually agreeable time between you and your supervisor.

The terms and conditions of your appointment will be governed by the *Policy for Postdoctoral Fellows, University of Saskatchewan*, which is available online at ([http://www.usask.ca/university\\_secretary/policies/research/8\\_21.php](http://www.usask.ca/university_secretary/policies/research/8_21.php)). As well, all activities shall be conducted in accordance with University of Saskatchewan policies and procedures, as well as statutes pertaining to health, safety and environment. You are also expected to comply with the guidelines for academic conduct as approved by University Council, which can be found on our website at: [http://www.usask.ca/university\\_secretary/council/reports\\_forms/reports/guide\\_conduct.php](http://www.usask.ca/university_secretary/council/reports_forms/reports/guide_conduct.php). The first three months of your appointment will be considered to be a probationary period and continuation of your appointment beyond this probationary period will be dependent on compliance with University of Saskatchewan policies, satisfactory research progress, and your compliance with the guidelines for academic conduct.

This offer of appointment is contingent upon you meeting all Canadian immigration requirements. If you accept this offer, it is your responsibility to contact the nearest Canadian embassy, high commission or consulate abroad to obtain a work permit and any other necessary documentation. Information about how to obtain a work permit and an application form can be found on the Citizen and Immigration Canada (CIC) website at: <http://www.cic.gc.ca/english/applications/index.html>. You will be required to provide your valid passport, this letter of offer, official copies of your university transcripts, and any other documents pertinent to your application. It is our understanding that as a Postdoctoral Fellow you are exempt from advance confirmation by Human Resources and Skills Development Canada (HRSDC) under Regulation #205(c)(ii), Confirmation Exempt Code C44 and you should advise the Immigration Officer of this exemption. It will facilitate the process to send a copy of this letter with your application. Please note that you will be required to pay a processing fee at the time of your application.

All requirements for your Ph.D. degree are to be completed prior to the start date of your postdoctoral appointment. Please forward a copy of your transcripts (with a translation if necessary) to me showing that your Ph.D. degree has been conferred. If the final degree has not been conferred, a statement of completion of studies from your home institution (Graduate Studies, Registrar's Office or equivalent) is required. This statement should indicate the date on which all requirements were completed and the expected date of degree conferral.

As a condition of this appointment, you are required to sign a 'Memorandum of Agreement' regarding intellectual property.

This letter constitutes the full terms of our offer and supersedes all other commitments either written or verbal that may have been made to you by the University of Saskatchewan. I hope that you will accept this offer, and would appreciate knowing your intentions as soon as possible, but not later than June 30, 2016. Please sign the enclosed copy of this letter and return it to me to indicate your acceptance, and keep a copy of this signed letter for your own records. Dear Dr. Priyanka Kapoor,

Congratulations on receiving an award for your presentation in the Junior Faculty Poster Presentation Competition at the 2014 Moyers Symposium. As you know, this internationally recognized symposium is organized by the University of Michigan Department of Orthodontics and Pediatric Dentistry, and attended by academic and clinically practicing orthodontists on an annual basis.

Your presentation and poster entitled, *Levels of interleukin-1 $\beta$  in gingival crevicular fluid (GCF) during and after maxillary canine distraction*, was judged for (1) originality of the project, (2) suitability of the methods of analysis, (3) scientific and/or clinical value of the work, (4) innovation and (5) quality of the poster, oral presentation and responses to questions. Your study was judged to be very well conducted (appropriate methods of analysis) and well presented, and on a topic of great relevance to our profession. It was also clear from your presentation that this poster represented only a portion of your overall research. You competed against other presenters in the junior faculty category (a postdoctoral fellow or full time faculty within the first five years of appointment as a full-time assistant professor) and came in 2<sup>nd</sup> place. You will soon be receiving your financial award of \$400 along with your certificate of award.

Congratulations on your success. I look forward to learning more about your work in the future.

Sincerely,

A handwritten signature in blue ink that reads 'Nan E Hatch'.
