

2. Interactive Workshop on Cyber-Safety and Digital Resilience

Date: 3rd November 2025

Venue: Jamia Millia Islamia

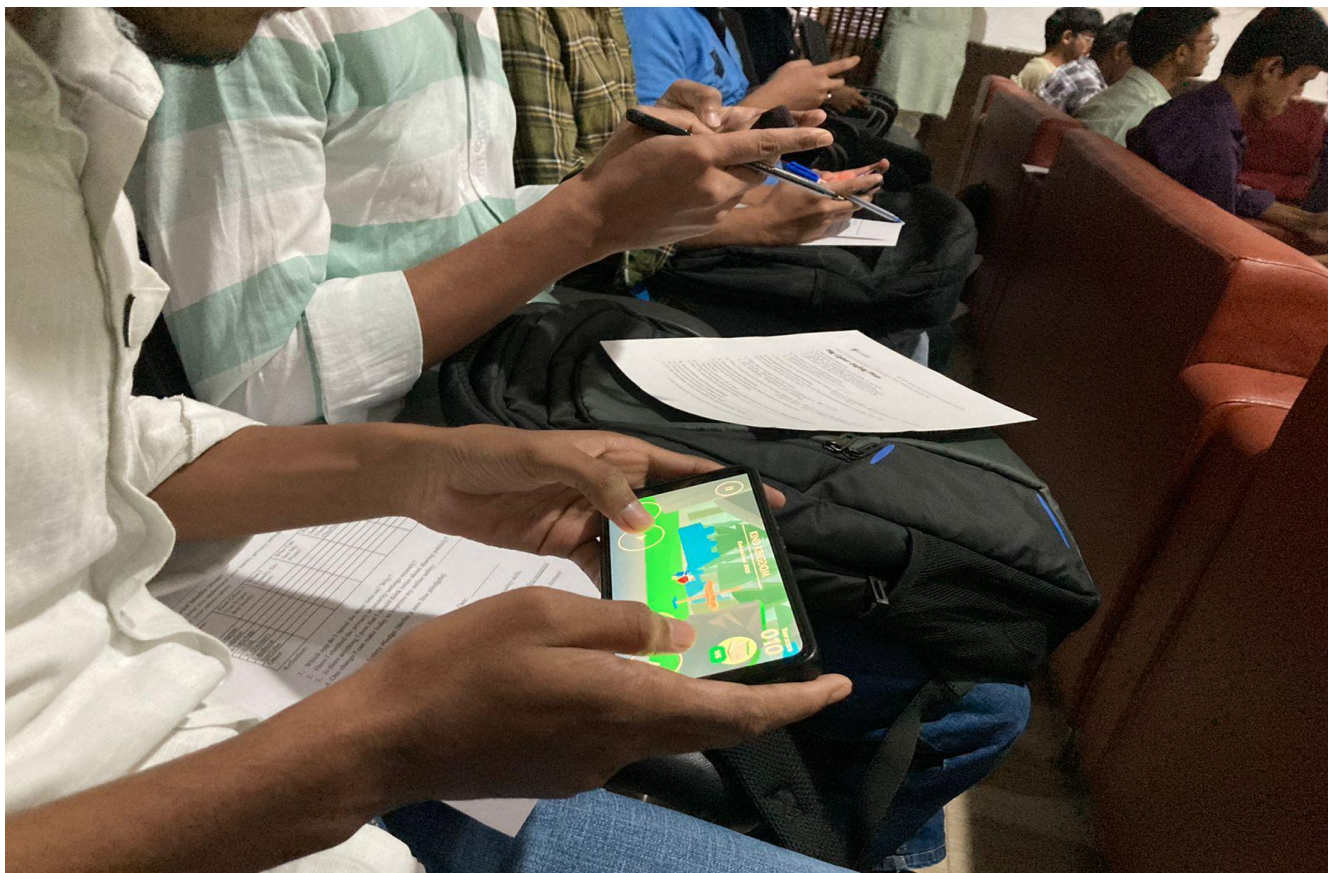

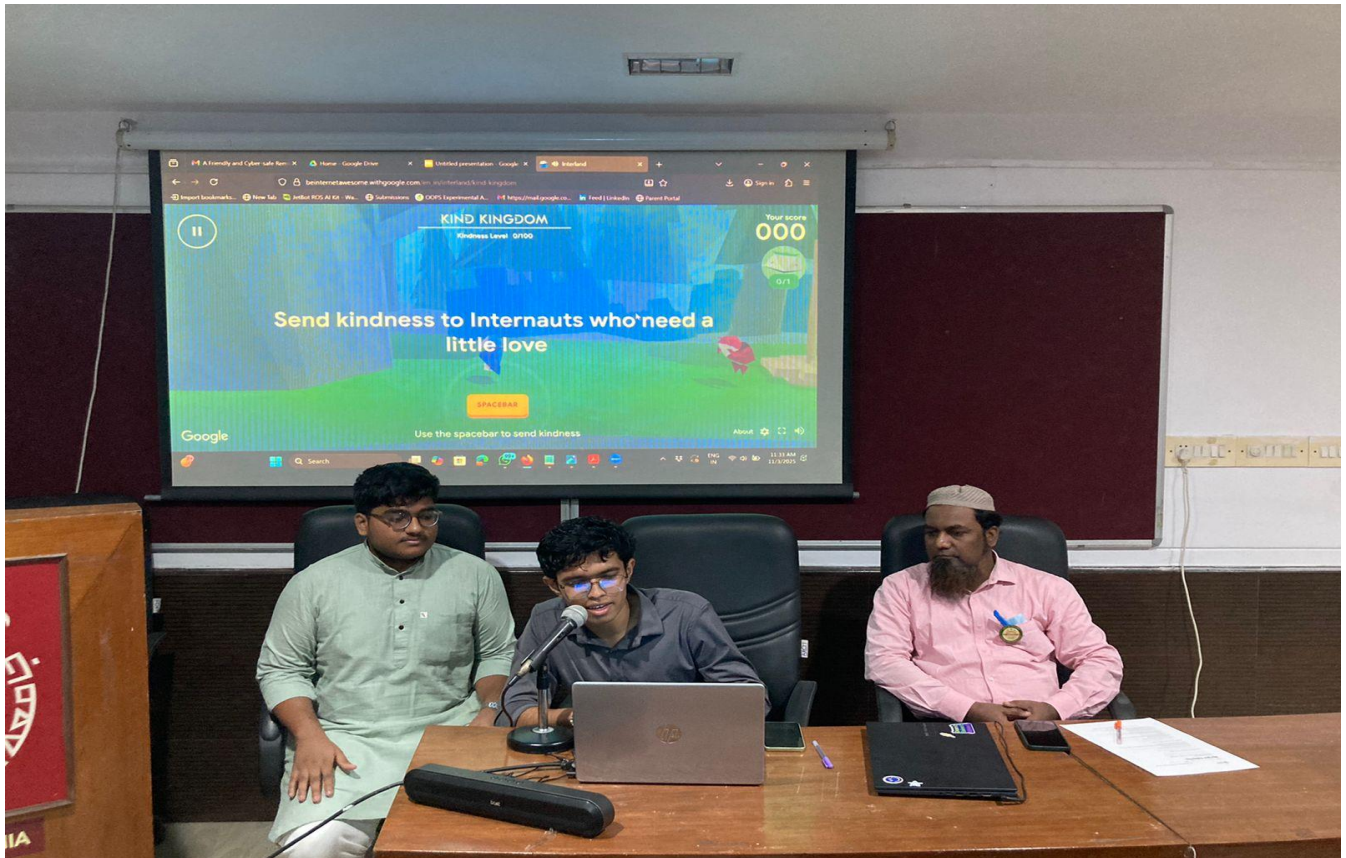

Resource Persons:

- **Mr. Abhishek Roy**, Staff UX Researcher, Google
- **Mr. Thoufique Haq**, Cybersecurity Specialist with extensive global experience

The Cyber Club organised an interactive workshop aimed at promoting digital resilience and responsible online behaviour. Key components of the workshop included:

- Demonstrations of common cyber threats and techniques for prevention
- Guidance on safe user behaviour, online privacy, phishing detection, device security, and password hygiene
- Discussions on digital footprints, emerging risks, and protective measures

The workshop offered hands-on learning and encouraged active engagement from the participants.

Outcome and Impact

- Both programmes significantly strengthened cybersecurity awareness on campus.
- Students and faculty reported improved understanding of safe digital habits and cyber threat preparedness.
- The initiatives contributed to fostering a culture of responsible and informed digital citizenship at JMI.
