About the Conference

In an era defined by rapid technological advancement, cultural convergence, and global interconnectedness, higher education stands at a critical juncture. Traditional academic boundaries are becoming increasingly porous, as disciplines intersect and the needs of a dynamic, global knowledge economy challenge established norms. The urgency to reimagine higher education systems has never been more pronounced. This international conference, therefore, seeks to engage academicians, policymakers, researchers, and thought leaders in an intellectual dialogue aimed at transcending disciplinary, institutional, and geographical boundaries.

This academic conference will explore how emerging epistemologies, pedagogical innovations, digital transformation, and global cooperation-aligned with the vision of India's National Education Policy (NEP) 2020 -can be leveraged to shape a more inclusive, responsive, and forward-looking higher education ecosystem. It aims to promote transformative conversations that integrate foundational disciplinary strengths with cross-cutting global themes and technological innovations.

**Selected papers will be
published in the ISBN-indexed
conference proceedings**

Important Dates

25 Aug 2025

Abstract Submission
Deadline

30 Aug 2025

Notification of
Acceptance

18 Sep 2025
