Call for Papers

It is believed that the teaching of Architectural design is in itself an imperative act, and that effective methodology at every stage from curriculum designing to teaching-learning activities may be formulated and discussed. Architecture Education includes innovative methods/strategies of teaching & learning; these have recently been the subjects of substantial cross-disciplinary interest.

The goal of this International Conference is to provide academicians and professionals a platform for discussions, deliberations and dialogues on current trends, researches and perspectives in Architecture Pedagogy and Practices. The conference also intends to discuss the development of critical thinking skills & inquiry based approaches, paradigms in creativity & innovation, current researches and investigations, collaboration & civic engagement, and environmental awareness among the students, academicians, professionals of Architecture fraternity so as to advance the current practices in Architecture Pedagogy and the profession as well. With this vision research Papers and articles are invited on the following **themes**:

- Emerging Concepts & Theories
- Pedagogy & Practices
- Environmental concerns in Architecture Pedagogy
- Research & Design
- Design Studio Pedagogies
- Collaboration & Civic engagement
- Curriculum Design
- Teaching & Learning Methodologies
- Creativity and innovation
- Assessment processes for Design
