

## **INVITATION**

You are cordially invited to a cause for awareness of women right's on the occasion of International Women's Day.

You are requested to participate in sharing your valuable views through words, visual arts or famous Quotation's on the setup provided by us

Art and Culture has always been ahead in portraying and putting forth the societal problems and again, time has brought us an opportunity to portray this burning concern, to bring a twist in the civil society.

We have intended to turn up this occasion for the awareness of the society. We want to extend a hand of inspiration to those oppressed women who hold the potential to overcome their misery by learning from renowned female personalities who are at an authoritative designation. Therefore, we have conceived an idea of organizing a Project titled "WOMEN AGAINST THEIR OPPRESSION", through which we would be able to convey the message that all Women are an integral part of the society and shall be treated with due respect, whether in the Professional World, Public Places or elsewhere.

### **How this Project will Proceed:**

Users are likely to express their feelings over the said title either through poems, verses, drawings, personal opinions, etc.

We shall be providing the Choksy boards to the users for their valuable thoughts. The boards shall be distributed among the elite class of women of the city or you can send your opinion through mail ([seemimurtaza@gmail.com](mailto:seemimurtaza@gmail.com))/ FB.

Also we would be having a free entry on the Women's Day for taking your views. The same shall be collected on the Choksy board and the Cartridge sheets.

The collected work will be displayed in MF Hussain Art Gallery at Jamia Millia Islamia, New Delhi on 8th Mar 2014. This will also include the Art work on Canvas, by the female artists.

Thanks in anticipation!
