

Welcome Message:

DEAR DELEGATES,

It's a great privilege for Jamia Millia Islamia to host the **NORTH ZONE ORTHODONTIC P. G. CONVENTION 2019**. Established in 1920, JMI is a NAAC accredited "A grade" Central university with 9 faculties, 40 departments and 25 centers providing various graduate, post graduate and doctorate courses. Faculty of dentistry is the youngest faculty of the university which has successfully organized various scientific programs including its annual event "**An Insight into Orthodontic PG Examination**" for the past 8 years.

The theme of this convention is "**PROBLEM BASED LEARNING**" which empowers the learner to integrate theory and skills in developing a viable solution for a defined problem. The convention will focus on interactive sessions and discussions rather than sole lectures.

There are **2 PRE-CONVENTION COURSES** on the most basic areas of Orthodontics: **Myofunctional appliances** and **Biomechanics**. These hands-on courses will provide the student a platform to enhance their clinical skills and theoretical knowledge.

The highlight of the convention is a panel discussion on "**JOB OPPORTUNITIES IN INDIA AND ABROAD**" The panelists from various countries will share their expertise regarding career opportunities available nationally and internationally.

The students will also get an opportunity to present **PAPERS AND POSTERS** which will be evaluated by experts to enhance the student's academic performance.

Join the scientific extravaganza; enjoy the National Capital territory and the warm hospitality of **Jamia Millia Islamia**.

Dr. Ragini
Organizing Chairperson,
North Zone Orthodontic P. G. Convention 2019,
New Delhi

Dr. Panchali Batra
