About FTK-Centre for Information Technology

The FTK-Centre for Information Technology was established in the year 1984 with the objective of providing central computing facilities to the students and staff of the University. Ever since its inception the Centre has played pivotal role in developing and implementing IT services and applications in Jamia. To offer IT services to the end users in the University, it has established a campus-wide network of more than 4500 nodes. In addition, the CIT has setup a number of WiFi hotspots within the University Campus. The CIT is also responsible for development and implementation of University Management Information System. Presently, the University ERP consists of 18 modules and is being extensively used in the day-to-day activities of the University. In addition, the Centre manages the University website, University E-Mailing system and other useful Intranet services.

About the ERP Mission Project

The ERP Mission project has been sanctioned by the National Mission on Education through ICT (NMEICT), MHRD with the objective of developing an Open Source ERP System for Universities and other educational institutions. The collaborative project is lead by IIT Kanpur

with the other teams being Aligarh Muslim University, Amrita University, Dayalbagh Educational Institute, IGNOU, IIT Roorkee, Jamia Millia Islamia, NIT-Hamirpur and SMVDU Jammu. Under the leadership of IIT Kanpur, each partner institution is actively engaged in developing of modules using Open Source tools.

Focus

The workshop on "ERP Mission Project" is aimed at providing a common platform to the developers, University Administrators, Faculty members and ICT Professionals for sharing their ideas on development and implementation of ERP Modules in Universities and educational institutions. The workshop will also be useful for students interested in Software development work as it would provide them with an opportunity to interact with experienced developers. Institutions who wish to implement ERP systems and/or E-Learning System would find the workshop especially interesting.

ERP Mission Modules

- Course management
- Student record, profiles
- Grant management
- Faculty expertise database
- Online exams, OMR
- Online Admissions
- Project management
- Time Table management
- Payroll and Tax management

- Stores and Purchase records
- Library management
