Dear Students

Warm greetings,

In the wake of the outbreak of corona virus causing severe contagious illness, the Administration of Jamia Millia Islamia is taking every possible step for making the campus safe with the help of proper cleaning, fumigation and sanitization of the buildings and the area surrounding them.

Corona virus normally spreads through respiratory droplets. Since you need to avoid close contact with one another, you are advised, for health reasons, not to assemble at a place or sit anywhere in big groups. Wash your hands frequently with soap and use hand sanitizer. Avoid touching your mouth, nose and eye with unwashed hands. The symptoms of Corona virus infection include fever, runny nose, breathing problem and cough. Consult a doctor in case you have breathing problems, runny nose and frequent sneezing.

The Administration of Jamia Millia Islamia would urge you to contribute your share towards keeping the campus safe and healthy.

Dear Students,

As you are aware that COVID-19 (Corona Virus) which is an epidemic threat is likely to enter into the phase of exponential growth which is highly dangerous in terms of magnitude and dimension as an infectious disease. The threat of growing virus in Delhi has assumed alarming proportion. Most of the universities and institutions have been closed down to restrict the progression of disease. It is beyond the capacity of the University to take commensurate measures and contain this danger. The places of large gatherings like Hostels, Dining Halls, Libraries, Kitchens are all highly vulnerable and susceptible to the threat. The idea is not to indulge in any kind of fear psychosis, however, it is being impressed upon all the students of the dangerous nature of the threat. The best course of action to prevent it is to secure all the students, teachers, workers and non-teaching staff. In Delhi, suspected cases are growing everyday and cross-movement in City and Campus of people is unavoidable. Classes have already been suspended till 31st March, 2020 which may be further extended if the epidemic is not contained. The University cannot expose its students to this threat which is life threatening and dangerous. The way the threat is progressing in the city, the places of collective gathering like Library, Mess, Canteens etc. in Jamia, are likely to be closed down as precautionary measures. Therefore, it is advised to all the students to understand the seriousness of the prevailing circumstances and for their own safety, they may consider to proceed to their homes for secured environment and care.

While leaving for their homes, they are advised to lock their rooms and inform the concerned Warden.

REGISTRAR

To:
