Several academic activities like conferences, seminars, symposia, workshops, MHRD's Global Initiative of Academic Networks (GIAN) courses, MOOCs courses, national and international collaborations testify the deep academic engagement of the faculty members and the proactive approach of the administration in putting the institution on a growth trajectory. Research projects, both at individual and institutional levels and the ever-increasing number of publications reflect the research orientation of the university. All these have led to an increase in the university's *h*-index, citations and overall ranking.

I thank Dr. Z. A. Ansari, Professor, Centre for Interdisciplinary Research in Basic Sciences, JMI for coordinating and helping in the compilation of the Report. I also thank the Registrar, Mr. A. P. Siddiqui, IPS, for their administrative support in preparing the Report.

Significance of the Logo

Right on the top is a star with the inscription “Allah O Akbar.” When in dark nights poor travelers have to traverse jungles and there is no one to show them the way, they chart their course with the help of stars. The star of Allah O Akbar is the guiding star of Jamia. Its eyes are fixed on this star which shows it the path in the darkling world. It reflects the truth that Allah is the greatest and he who bows his head before Him only, discovers the truth. Having bowed before Him, how

Can the head bow before anything else? Beneath this glittering star is a book with the inscription, “*Allamma Insaana Maalam Yalam*” (Taught man that which he knew not). This is a verse from the Holy Quran. Through the Holy Quran, Allah has revealed His Will to His differences of caste, class, colour, of master and slave, and became true to His tenets. This book led from darkness to light, and placed the wayward and lost on the Straight Path. The Prophet made an example of his own life. By the light of his eyes and the warmth of his heart, He prepared a group of good persons who cleaned the world of evil and spread the Word of God. On both sides of the Book are two date trees typical of the land where God’s last Prophet was born. They are symbolic of the barren valley in which nothing grew; but it was there that the sapling of din took root. These trees are emblems of hope from a land in which not a leaf or flower could sprout; but wherein suddenly the springs of hidaya (guidance) burst forth and drenched the “communities of the heart”. They are a source of consolation for people who became disheartened with adverse circumstances. Why do external factors make them lose hope?

At the very bottom is a tiny crescent which reads “Jamia Millia Islamia” in Arabic. This crescent is small but just as it expands to become the full moon on the fourteenth night, so also Jamia. Meaning that this is the beginning to go for work. It will expand to become the full moon and a source of delight for the eye of its beholder.

Panoramic Profile

Jamia Millia Islamia has a historical and distinctive place in the country’s academic scenario. This institution places a premium on innovative teaching and professional training. Over the years, Jamia has emerged as a seat of learning that underscores the cultural and religious diversity of India, emphasizing the inclusive spirit of the country. It has inculcated a spirit of learning that blends tradition with modernity, humanism with liberalism, and nation building with professionalism. Jamia’s strength lies in its stability to cull from the past in order to address the present and forget the future.

Educators and researchers have contributed to expanding knowledge in all the faculties, departments and Centres of Jamia Millia Islamia. Jamia has “unwavering commitment to excellence”, and to maintain the quality of education as well as research. It is endeavoring to strengthen scientific output in terms of publications based on its research productivity, impact, innovation and excellence.
