Press Release

Website of International Conference on Smart Cities to be held at JMI launched

The department of Civil Engineering, Faculty of Engineering & Technology, JMI is organising an International Conference on ‘**Smart Cities: Opportunities & Challenges**’ from 14-16 March 2019. Erfurt University of Applied Sciences, Germany and Agricultural Research Organization, Israel will be the knowledge partners in the conference.

Mr. A.P Siddiqui, Registrar, JMI today launched the website www.smartcitiesjmi.com on this international conference in the presence of faculty members of the civil engineering department.

This conference shall focus on how a ‘smart city’ can contribute towards improved governance and efficient management of infrastructure such as water, energy, transportation and housing for sustainable development, economic growth and better quality of life for its citizens.

The conference will focus on themes like smart city concept in developed countries, smart transportation systems, urban planning and smart city, application of IoT and smart tools, impact of smart city concept on urban design, smart materials and construction techniques, utilities of services in smart cities, risk reduction and disaster management, pollution control measures & waste management, sustainability and natural resources, financial aspects of the smart city projects, Educational-social and health infrastructure, safety and security in smart cities, smart energy management system, sociological aspects of smart cities, modelling and simulation and challenges in implementation of smart city projects.

A large number of Academicians/researchers/students, policymakers/administrators, urban development authorities, urban local bodies /city infrastructure service providers, consultants/engineers/planners/designers/ developers/ financing bodies, power/renewable energy providers, information and communication technology(ICT) providers, system integrators and vendors & suppliers of urban utilities/services from around the world will be taking part as delegates in this conference.

Delegates/students can register themselves for the conference on the website www.smartcitiesjmi.com and can get any info regarding the conference by sending email on info@smartcitiesjmi.com
