Press Release

News24 felicitates Mohammad Amir Ali, a diploma engineering student with "JASHN-E-YOUNGISTAN 2" - "SAMMAN"

Mohammed Aamir Ali, a diploma engineering student of Jamia Millia Islamia(JMI) has been felicitated with "JASHN-E-YOUNGISTAN 2" - "SAMMAN" by the country's well-known Hindi news channel News24.

Amir has recently been selected by Frisson Motor Werks, Charlotte, North Carolina, USA as Battery Management System Engineer on an annual salary package of \$ 100,008.00 (Approximately Rs.70 Lacs per annum). This is highest salary package for any diploma engineering student of JMI since its inception.

Amir could not attend the felicitation function on November 24, 2018 organized by the TV channel. His award comprising of a trophy and a shawl was sent to the university where it was presented to him by the JMI Registrar, Mr A.P. Siddiqui (IPS) in the presence of teachers and officials of the university today.

In a mail sent to the university News24 wrote about Amir that; "You are an inspiration for the billions of Indians, and BAG Network salutes you. The Young India is laying the foundation of a New India, an India that is making a world-wide impression. The world is taking note of our youth, and it's time to celebrate their success. News24 is taking the lead in promoting and honouring the youth of India with its second edition of Jashn-e-Youngistan.

It is an honour for us to felicitate you by showcasing your contributions before millions of our viewers in India and abroad." s

Vice President, M Venkaiah Naidu, was the guest of honour at the November 24 function which was also attended, among others, by Tapsee Pannu, Kareena Kapoor, Ayushman Khurana, Kartik Aryan, Zaira Waseem etc.

Amir's story is of consistent hard work and passion to do something new. He belongs to a very humble background. Amir's father Shamshad Ali is working as an electrician in JMI. Despite scoring good marks in JMI school board examinations, Amir could not get admission in B.Tech course for three consecutive years. After his first failed attempt to get admission in B.Tech, he took admission in diploma engineering and attempted twice again unsuccessfully for B.Tech. While doing his diploma engineering, he concentrated on his project on 'Pre Electric Car' and got appreciation from various corners of the industry.
