Press Release

Jamia to adopt a holistic approach to the physical reopening of the campus

Jamia Millia Islamia is holistically looking into matter of physical reopening of the campus to arrive at a well-informed decision. The university is committed to secure the interests and welfare of its students. To this end, it has initiated the exercise of taking all stakeholders into confidence.

The university is closely monitoring the fast-changing pandemic situation in Delhi and rest of India as majority of our students come from different parts of the country. The institution intends to provide the students safe and healthy presence on the campus consistent with the mandated covid appropriate behaviour.

The quality-based online classes are in full swing and we are attempting to put the disrupted academic calendar on the track in terms of teaching and examinations.

The university is in the process of declaring the examination schedule for the 1st semester students that would be conducted through the Open Book Examination (OBE). Majority of our students are not ready for offline face-to-face examinations.

Since JMI is a residential university with an all-India jurisdiction, the institution is keeping eyes on similar all India residential reopening of the universities.
