Press Release

JMI students bag good job offers at campus placements

The University Placements Cell, Jamia Millia Islamia (JMI) launched Campus Placements for the Academic year 2021-2022 on August 7, 2021. Since then, more than 10 multinationals and noteworthy companies have conducted virtual campus placement drives. Some of the biggest brands which have offered jobs to students are TCS, IBM, Deloitte and Wipro. The students who have got placement offers are from Engineering, Computer Science and Commerce streams.

About 100 students have been selected from B. Tech. and MCA by companies like TCS, EXL Services, Josh Technology, ZS Associates, Innovacer, Publicis Sapient, Infoedge and IBM. 7 students of Master of Commerce(M.Com) were selected by Deloitte.

The highest package that has been offered so far is INR 14.00 lakh per annum and the average package is about INR 7.00 LPA. Given the economic slowdown and the post pandemic conditions since last year, it is a feat in itself to have the best and top recruiters hiring from JMI.

Prof. Z. A. Jaffery, Director, University Placement Cell, while congratulating the placement team said that this year we invited good companies on priority basis. The strong industry- academia linkages forged by the JMI, its quality of students and teaching have helped the university emerge as a top draw among some of the biggest corporate names from across the country. In the coming month, more companies are lined up for campus placement drives.
