JMI's Faculty of Dentistry organizes Guest Lecture on "Emerging Nicotine Products: Understanding Vaping and Newer Nicotine Delivery Products"

New Delhi, September 25, 2026

The Faculty of Dentistry, Jamia Millia Islamia (JMI), organized a guest lecture on "Emerging Nicotine Products: Understanding Vaping and Newer Nicotine Delivery Products" on 24 September 2026. The programme was conducted by the Department of Public Health Dentistry under the training and capacity building activity of Project CORE (Community Focused Oral Health Research for Equity), a multi country collaboration involving Colombia, Kenya, Brazil, and India, supported by the National Institute for Health and Care Research (NIHR), UK. The aim was to provide third year and final year students with insights into emerging nicotine products, including vaping and newer nicotine delivery products, and to encourage greater understanding of their evolving role in public health.

The programme commenced with a welcome address by the Dean, Faculty of Dentistry, JMI, Prof. Nadeem Yunus, who welcomed the guest speaker and participants and highlighted the importance of understanding emerging public health issues related to nicotine use and new nicotine delivery products. He emphasized the value of developing awareness and evidence based understanding of emerging health challenges, encouraging students to actively engage with contemporary public health issues.

The session was led by Dr. Upendra Singh Bhadauria, Technical Specialist (Cessation) at Vital Strategies, who delivered an insightful lecture on emerging nicotine products, vaping, and newer nicotine delivery products. The event was appreciated for providing valuable insights into emerging nicotine products and newer nicotine delivery technologies.

The whole programme was conducted under the convenorship of Prof. Abhishek Mehta, with coordination of Prof. Aditi Verma, Prof. Bushra Ahmed Karim, Dr. Mohd. Khateeb Khan, Dr. Sunil Kumar Choudhary, and Dr. Barsha Priya Deka from Public Health Dentistry, Faculty of Dentistry, ensuring smooth organization and enthusiastic engagement throughout the session.
