Press Release

Two Weeks Training Program on "Rooftop Solar Grid Engineer" at JMI

Department of Electrical Engineering, JMI is organizing two weeks training program on "**Rooftop Solar Grid Engineer**" in collaboration with National Institute of Solar Energy (NISE), Ministry of New & Renewable Energy, GoI from 14- 24 January 2019.

The Training program will be held at Department of Electrical Engineering, Faculty of Engineering and Technology, JMI . The training will involve lectures from Academics and Industry and live demonstrations in lab. Advance Power Electronics Research lab will be one of venue during training program for demonstration of R&D work. Course coordinator of this program is Dr. Ahteshamul Haque, who is a faculty member of the Department of Electrical Engineering.

Dr. Haque has informed that Ministry of New&Renewable Energy and NISE has an objective to produce trained skilled professionals in the area of Solar Energy to meet the market demand of the country and of the world. JMI has been chosen as one of the University in the country where this training programme will be organized. The training programme has been designed to achieve this objective.

Dr. Arun Kumar Tripathi , Director General of NISE has given his full support to organize this training programme. Prof. Z. A. Jaffery, Head, Department of Electrical Engineering has expressed that this training programme will give new exposure to engineering graduates for enhancing their career plans.

The Registrar, JMI Mr. A. P. Siddiqui (IPS) has given his invaluable support and guidance to organize this training program.
