JMI organizes webinar on “COVID-19: Diagnosis and Clinical Management”

Centre for Interdisciplinary Research in Basic Sciences (CIRBSc), Jamia Millia Islamia (JMI) organized a webinar on “COVID-19: Diagnosis and Clinical Management” on 26th September 2020.

Prof. Shobha Broor (Emeritus Professor, Faculty of Health and Medical Sciences, SGT University, Gurgaon) and Dr. Shweta Bansal (Consultant, Pulmonary Medicine, Critical Care & Sleep Medicine, VIMHANS Nayati Multispeciality Hospital, New Delhi) were the speakers of the webinar.

Prof. Broor presented a compressive overview on the available diagnostic approaches for COVID-19 including real time PCR, serology and antigen detection. In addition, she also provided insight into the common myths and facts about this infection.

The second speaker Dr. Shweta Bansal highlighted the clinical aspects of the disease including mild, severe and very severe cases and emphasized the current treatment protocol for COVID-19 patients including use of antiviral drugs, steroids, anti-inflammatory medications, anticoagulants, plasma therapy and supplements.

JMI Vice-Chancellor Prof. Najma Akhtar expressed importance of such activities wherein the dialogues on health related aspects and awareness related to COVID-19 is extremely important in the present scenario.

She also expressed need of conducting exclusive research on COVID-19 is of prime importance in the national health care leading to an ATMNIRBHAR BHARAT.
