JMI improves its rank in London based THE Asia University Rankings-2021

Maintains position in THE World University Rankings-2021

Jamia Millia Islamia(JMI) has been ranked at 180th position by the London-based *Times Higher Education (THE) Asia University Rankings- 2021*. With a remarkable jump of 18 position JMI reached to 180th rank improving its position from 198 last year.

The *Times Higher Education Asia University Rankings* assessed performance of 551 universities from 30 countries on the same 13 performance indicators/parameters as the *THE World University Rankings*, but they were recalibrated to reflect the attributes of Asia's institutions.

The universities were judged across all their core missions – teaching, research, knowledge transfer and international outlook – to provide the most comprehensive and balanced comparisons available. JMI has scored maximum points for its teaching, citations and industry income.

JMI has been consistently maintaining its rank in *THE World University Rankings* also. It was ranked at 601-800 in the recently declared *THE World University Rankings- 2021*.

“It is a matter of great pride and satisfaction for the university. This reflects the hard work of the teachers and other staff, which is being recognized internationally. JMI will continue its endeavours to improve its rankings further in coming years.” said Prof. Najma Akhtar, The Vice-Chancellor, JMI.

Prof. Akhtar congratulated all colleagues and staff for the achievement.

JMI has been continuously improving its national and international ranking over the last few years. In NIRF-2020 JMI was amongst the top 10 universities in the country.
